

## Say It Right!

An airplane flies because of Bernoulli, not Marconi; but that being said, proper use of the radio can be a great aid in improving safety. Effective communication is an integral part of aviation safety, regardless of whether you operate within the ATC system, or in the non-towered environment. Don't miss this exciting and informative briefing presented by Doug Stewart of the FAASTeam!

**Directions:** From Route 9H on the South end of the Columbia County Airport turn East at Kozel's Restaurant. The Museum is on the North side of the road a few hundred yards after the turn.

### A message from the National FAASTeam Manager

Over 136,600 pilots earned WINGS credits last year. Will you, this year?

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!
